

# Andrés Felipe Moreno J.

## Frontend Developer

I enjoy all aspects of learning and especially doing new and challenging things. In my work I am used to being responsible and responsive to the changing needs of the work place. It is my nature to always give the best in every professional endeavour I take on.

Webpack

Sass

CSS

HTML

Responsive Design

## PERSONAL PROJECTS

### Focus (08/2020 - 09/2020) [🔗](#)

- I used my skills with React.js, React Router and data fetching with React.js. This project also helped me a lot to improve my teamwork and assertive communication skills.

### API Delilah Resto (04/2020 - 07/2020) [🔗](#)

- I managed to improve my skills on the backend side and develop an API with Node.js and Express for a restaurant that will allow the user to order and the administrator to create more dishes for the menu and manage the orders.

### GifOS (01/2020 - 03/2020) [🔗](#)

- I used advanced HTML and CSS skills with preprocessors for website layout. And I used JavaScript for on-site interactions and to consume the Giphy API to display search-related gifs or create custom gifs.

### Podcast (11/2019 - 01/2020) [🔗](#)

- This project allowed me to put into practice the basic skills with HTML and CSS for the development of a website.
